Programming & Shaders (C++, C#, Unreal Engine 5, Unity - URP, HDRP, Shader Graph)

Agile Methologies (Scrum & Kanban, Jira/Trello Workflows)

Work Experience

Professional Development

04/2025 – Present | Barcelona, Spain

Career Break

- Main artist for MeCat VR (UE5), creating environmental models, textures and LODs, as well as tackling and solving 90% of the art problems throughout development.
- Experimented and designed personal VTuber models for potential opportunities on Twitch, specialising in stylised models and custom rigs with facial blendshapes, optimised in real time.
- Investigated advanced skills in iterative stylised art creation of character models (PBR, hand-painted, stylised).
- Actively participating in local video games industry events, such as Devicat, IndieDevDay, and PG Connects Barcelona, reconnecting with studios and mentors to explore new opportunities and meet up with the industry.

3D Artist, Game Mentor & Content Creator

02/2023 – 04/2025 | Spain

Freelance (inVideogames, Fundació Mercè Fontanilles, Maizz Visual)

- Developed 10+ stylised characters (full pipeline: Concept Art, Blockout, ZBrush Sculpting, Retopology, UVs, Texturing and Rigging) for video games and other multimedia projects, garnering critical acclaim.
- Implemented and taught a curriculum related to 3d fundamentals of asset creation with Blender, Substance Painter and game development engines, with more than 50 students graduating.
- Supervised 10+ serious game projects by students, arranging successful key partnerships in healthcare.
- Managed game events like game jams and conferences, with 150+ participants per event with 95% satisfaction.
- Wrote, recorded and edited videos for the podcast *InnerGamers*, with favourable critiques by local news.

Projects

MeCat

05/2024 – 08/2025

VR Game, Available on Steam & Meta Store - UE5 | Lead 3D & Tech Artist

- First-person cat simulator with lo-fi, cottagecore & witchery stylised art style
- Modelled and textured the lead character and 35+ environmental props and troubleshoot art-related issues.

Kaijus as Environments

06/2022 – 10/2023

Award-winning Final Degree Project - Unity | Main Developer & 3D Artist

- **Honours Award Project & Best Final Degree Project 2023 at CITM-UPC**
- Directed & produced a boss battle experience in the style of Shadow of the Colossus.
- Challenged 50+ players with an 80% success rate across multiple playtests.

Education

CITM-UPC

2019 – 2023 | Barcelona, Spain

Bachelors degree in Video Game Design and Development
