Stylized 3D Artist | UE5 & Unity | Character Creation, Optimization, VR, VTubing

Built 10+ game-ready characters • Led MeCat VR (UE5) • Designed VTuber models • Mentored 50+ students

Seeking full-time and freelance roles in game development - Barcelona / Girona / Remote

Projects

MeCat

05/2024 – 08/2025

VR Game, Available on Steam & Meta Store - UE5 | Lead 3D & Tech Artist

- First-person cat simulator with lo-fi, cottagecore & witchery stylised art style
- Modelled and textured the lead character and 35+ environmental props and troubleshoot art-related issues.

Kiwi & Lladruc

2024 – 2026

VTuber Models - Blender, ZBrush, Substance Painter, Unity (Warudo) | 3D Artist

- Stylized, real-time rigged models for Twitch streaming, with PBR + hand-painted textures and facial blendshapes.
- **Kiwi**  (2024 - 2025): Anthropomorphic gryphon with dynamic hair, tail and wing physics and customizable clothing.
- **Lladruc**  (2025 - 2026): Humanised wolf with urban aesthetics, an alternative form and dynamic hair and tail physics.

Kaijus as Environments

06/2022 – 10/2023

Award-winning Final Degree Project - Unity | Main Developer & 3D Artist

- **Honours Award Project & Best Final Degree Project 2023 at CITM-UPC**
- Directed & produced a boss battle experience in the style of Shadow of the Colossus.
- Challenged 50+ players with an 80% success rate across multiple playtests.

Work Experience

Professional Development

04/2025 – Present | Barcelona, Spain

Career Break

- Led the art development for MeCat VR (UE5), including character models, textures, LODs and environmental assets.
- Designed VTuber models for potential opportunities on Twitch, specialising in stylised models and custom rigs with facial blendshapes, optimised in real time.
- Developing advanced skills in iterative creation of character models in various artstyles (PBR, hand-painted, stylized).
- Actively participating in local video games industry events, such as Devicat, IndieDevDay and PG Connects Barcelona, reconnecting with studios, mentors and collaborators to explore new opportunities and meet up with the industry.

3D Artist, Game Mentor & Content Creator

02/2023 – 04/2025 | Spain

Freelance (inVideogames, Fundació Mercè Fontanilles, Maizz Visual)

- Developed 10+ stylised characters (full pipeline: Concept Art, Blockout, ZBrush Sculpting, Retopology, UVs, Texturing and Rigging) for video games and other multimedia projects, garnering critical acclaim.
- Implemented and taught a curriculum related to 3d fundamentals of asset creation with Blender, Substance Painter and game development engines, with more than 50 students graduating.
- Supervised 10+ serious game projects by students, arranging successful key partnerships in healthcare.
- Managed game events like game jams and conferences, averaging 150+ participants per event with 95% satisfaction.
- Wrote, recorded and edited videos for the podcast *InnerGamers*, with favourable critiques by local news.

Education

CITM-UPC

2019 – 2023 | Barcelona, Spain

Bachelors degree in Video Game Design and Development

Escola Municipal Josep Maria de Ruera
